ALEX MORGAN

Senior Software Engineer & Automation Specialist

Email: alex.morgan@example.com | Phone: +1 (555) 019-2834 | LinkedIn: linkedin.com/in/alexmorgan-demo | GitHub: github.com/alexmorgan-demo | Location: San Francisco, CA

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 6+ years of experience designing, building, and scaling modern web applications and automated workflow solutions. Strong background in Python ecosystem, cloud infrastructure, API integration, and machine learning pipeline development. Proven track record of improving system performance, optimizing backend services, and leading cross-functional developer teams.

TECHNICAL SKILLS

Languages:	Python, JavaScript (TypeScript), SQL, HTML5/CSS3, Bash
Frameworks & Tools:	FastAPI, Django, Flask, React, Node.js, Docker, Kubernetes, Git, n8n
Cloud & DevOps:	AWS (EC2, S3, Lambda), GCP, PostgreSQL, Redis, CI/CD Pipelines (GitHub Actions)
Specializations:	RESTful API Design, Microservices, Bot Development, Workflow Automation, Data Processing

WORK EXPERIENCE

Senior Software Engineer — *Apex Tech Solutions* Jan 2023 – Present | San Francisco, CA

- Architected and deployed scalable backend microservices processing over 2M daily API requests using Python and FastAPI.
- Engineered automated workflow integrations leveraging n8n and custom webhook handlers, reducing manual operational tasks by 40%.
- Mentored a team of 5 junior and mid-level developers, enforcing code review standards and unit test coverage above 90%.
- Optimized database queries and Redis caching layers, resulting in a 35% improvement in peak application response times.

Software Engineer — *Nexus Cloud Systems* Jun 2020 – Dec 2022 | Austin, TX

- Developed REST APIs and data processing pipelines utilizing Python, PostgreSQL, and AWS S3.
- Created interactive conversational bots and automated notifications for internal Slack and web interfaces.
- Collaborated with product teams to design modular, maintainable front-end components using React and TypeScript.
- Containerized applications using Docker and automated deployment workflows via GitHub Actions CI/CD.

Junior Developer — *Innovate AI Labs* Aug 2018 – May 2020 | Austin, TX

- Assisted in building web scrapers and data ingestion bots using Python (BeautifulSoup, Scrapy, Selenium).
- Maintained legacy Django codebases, resolved bug tickets, and written technical documentation for internal systems.

PROJECTS

Automated AI Resume Parser & Agent 2024

- Built an end-to-end resume extraction pipeline using Python, OCR tools, and LLM APIs to structure PDF resume data into standardized JSON formats.

EDUCATION

Bachelor of Science in Computer Science — *University of Texas* Graduated May 2018
